

INVITATION LETTER

April 2, 2021

To: Shahriyar Kashif,
Department of Mechanical Engineering,
University of Engineering and Technology Lahore, Pakistan

On account of your renowned research and contribution in biomedical engineering and biotechnology, I formally invite you to participate in the 10th International Conference on Biomedical Engineering and Biotechnology (ICBEB 2021) scheduled during November 15-18 via Microsoft Teams.

The 10th International Conference on Biomedical Engineering and Biotechnology (ICBEB 2021) aims to bring together leading academic scientists and scholars to exchange their research results. ICBEB 2021 program consists of keynote speeches, invited speeches, oral presentations and poster presentations. China Physiological Signal Challenge 2021 will be held synchronously during the conference.

ICBEB works on promoting the interdisciplinary collaborations of Medical Imaging Technology & Application, Biomedical Signal Processing & Medical Information, Biomechanics & Biomechanical Engineering, Medical Chemistry, Pharmacology & Toxicology, Molecular Biology, Biomaterials and other related topics. As an annual gathering, it has attracted over 1000 attendees from over 20 countries in the past nine years.

Here on behalf of the Organizing Committee of ICBEB 2021, we cordially invite you to participate in the conference and deliver an **Online Oral Presentation** on **Computational prediction of contact pressure for different sizes of knee implants in total knee replacement.** We have every reason to believe that your attendance would make the conference more successful.

More details about ICBEB 2021 could be found via www.icbeb.org.

Best regards,

Linda Li
Secretary General
ICBEB 2021 Organizing Committee
